Accessibility Through Technology

Friday, August 19th, 2011

10 AM - 3 PM

This workshop will explore the intersections of technology and accessibility. We'll look at specialized technology that you may need to provide access to your agency's services, such as TTYs, videophones, typing aids, and screen readers, as well as common technology that can increase your accessibility to persons that may be deaf and/or hard of hearing, may have a visual impairment or may experience barriers to service.

REGISTRATION FORM: (Registration deadline: Friday, August 12, 2011)

Name: _____

Title: _____

Agency: _____

Address: _____

City, State, Zip: _____

Phone: _____

Fax: _____

Email Address: _____

Workshop Objectives:

- To be able to identify and use common pieces of specialized technology that increase accessibility
- To be able to identify common problems faced when a situation is not accessible
- To be able to name three common technologies that, when properly used, allow greater accessibility than is common.
